spellingcity.com-Study Vocabulary Words for test, Return Animal World Books

Thursday-Spelling-Study, Math Problem-Solving 19.6-Signed

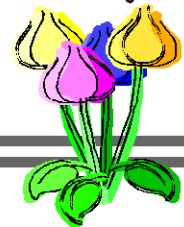

NATIONAL
ENDOWMENT
FOR THE ARTS

Arts in the Classroom

I am proud of the students for the great job they did on their Animal Folder Reports with Masks. They were awesome! We had an animal parade for Mrs. House, Pre-K, K, and 1st Grades! The Celebrate Diversity Program was great! 2nd Grade did a fabulous job singing "On Top of Spaghetti."

Announcements

2nd Grade did an outstanding job leading Mass last Thursday. I heard many compliments and especially loved the one that mentioned that we did a better job than some of the older grades! I want to thank Mrs. Gruseck for making the yummy cake and providing milk for our special treat. We certainly enjoyed it! I am so excited about our field trip to Noxubee Conservation Center. Thanks to all of you for making Teacher Appreciation Week so awesome! The notes and flowers from the students were so sweet. The treats each day and lunch provided on Friday really made me feel appreciated. The End of Year Party will be Tuesday, May 23rd, after Awards Day and the ballgame. Mrs. Gruseck will be contacting you with the details. I want to thank her for being an awesome Homeroom Mom! I want to let you know now that my daughter in Memphis is expecting her baby on June 1st. However, her doctor said she could deliver earlier than that. In the event this happens, I might be gone for the last day or few days of school. I am sure you understand! I have enjoyed teaching your children. They have learned so much and are so creative. Please look closely at any area not marked as a 3 on the report card. These should be strengthened over the summer. The students have grasped the multiplication concept very easily so work on those facts now! I would also suggest using lined paper and practicing Cursive Handwriting. Have a blessed week! Remember, you can reach me at denewman@cablone.net.
