

Accountability Counts for ALL of Us

Dear Parents,

As we begin this year, one of the most important things is our ability to work together as educators for your child. In order to provide the most conducive learning environment for ALL students, we will all be held accountable for ourselves. Please review the following so you will be informed on the expectations of my classroom. Since your child will be bringing his/her planner home daily, this is where "how your child's day was" will be indicated. PLEASE, ALWAYS sign your name in the area where your child indicated his/her accountability for that day. The very last column will be used to list the spelling words each week! Your signing each day sends a strong message to your child about our partnership in their education. Your cooperation is greatly appreciated!

In addition to the plan below, I will also use class & individual marble compliments. This is strictly a "reward" program. The children and the class will have opportunities throughout the day to earn marbles for compliments. Each child's cup of marbles will be used by each child's own discretion to redeem their marbles for various auction items.

Often times, changes are made to the best laid plans. We have to have a starting point. Please feel free to share with me any of your concerns/ideas.

Sincerely,
Mrs. Allgood
